About the Teacher

Todd Puntolillo is a life-long metaphysician. A dynamic speaker, he has delivered his message of love and healing on television and radio. As a writer, he has written columns for national, international and local publications. He gives seminars, classes, does public speaking engagements and personal coaching.

Todd has invested sixty years in pursuit of an understanding of the metaphysical laws that underwrite our existence. He has studied twelve metaphysical healing modalities and witnessed hundreds of healings through his understanding and application of Divine Law. His remarkably clear style is direct, yet profound.

Subject matter for the classes will include:

- Creating a Pathway to Enlightenment.
- Description of healing modalities - why they work...or don't.
- Practical hands-on healing
- Healing by visualization
- Healing through belief/faith/spiritual understanding
- Why "The Secret" works and when it doesn't.

Todd's healing classes are a must for those who question their place and purpose and want to be more powerful and peaceful.

As a speaker, Todd Puntolillo gives talks on the subject of "Creating a Better World" and "The Mystical Secrets of Life."

He presents classes and seminars entitled "The Dynamics of Energy and Consciousness" aimed at teaching the healing technologies from his book, "The Mystical Secrets of Life."
