

## Newsletter October 10, 2008

Hi Folks,

This newsletter is being sent to the friends, family and acquaintances of Todd and Merlyn Puntolillo. This is NOT our spiritual newsletter, just informational to keep in touch.

Most of you, but not all, know that Mom passed away this past summer. Merlyn and I moved in with her for her last 5 weeks here to care for her and share some precious moments. Mom just loved Merlyn and said that she was the best caregiver--ever! We will miss Mom.

Because I had to shut my business down while caring for Mom, we decided not to start it up and then go to see Merlyn's family later in the year and shut it again. So, during the end of summer season we traveled to Asia -- Hong Kong first, and then the Philippines. We included a couple of photos below.

Merlyn's sister Gigi's famil

We spent 4 days in Hong Kong and took Merlyn's sister, Jennifer, nick-named Jingle, to Hong Kong Disneyland. On another day, Jingle brought her Filipina friends and we met at a large mall by a park. They were very cute, tiny, funny and silly. We went to see the movie Mamma Mia and we all enjoyed it. Merlyn and her sister almost look like twins.

In the Philippines, they killed a goat in my honor. (Apologies to my vegetarian friends. I asked them if it could be a sweet potato instead, but they insisted on honoring me their way.) I met family members I had never met. Many traveled long distances to see Auntie Day Day (Merlyn) and the new American family member, Kuya Todd -- Kuya means Elder Brother. This name pleases me. I enjoyed all of my new family. The very young ones are soooooo precious!

Lots of pix are available to anyone interested, just ask.

I have re-done my books so now there are two, The Dream Maker and The Mystical Secrets of Life. I left pieces of the ads below so you can see what I have done with my writings.

Love to all of you,

Todd & Merlyn Puntolillo

Learn from Nature

We have a destiny -- and we are that destiny unfolding. It matters not how we fight it, the acorn will be an oak and we will be what we were meant to be. Either we resent it and suffer or surrender to it and blossom. Why do so-called lesser creations do naturally that which many of us fret about year after year? Maybe it is time for us, the imagined dominators of our planet, to recognize the Power Within us and all life.

by Todd Puntolillo

From the Chapter on Money

"We either grow or wither.

There is no stationary position.

In a forward moving Universe,

idleness equates to retreat."
